

COMING SOON OCTOBER 2021

New Children's Board Book!

Clinical Support Provided By NH Chapter of AAP

Happy, Healthy, Lead-Free Me!

An innovative approach using children's literature to educate families on lead poisoning prevention and importance of pediatric lead level testing.

- Engaging illustrations and rhyming text capture a toddler's attention.
- *Simple Steps* approach to parent education supports successful delivery of prevention messaging.
- Robust external technical review included the clinical team at Pediatric Environmental Health Specialty Unit (PEHSU) Region 1/Boston Children's, EPA Region 1 Boston, and many others.
- Parent and child feedback was collected from over 90 NH families across New Hampshire.

Books will be available at no cost to NH pediatric health care providers to distribute to families with young children during Well Child Check appointments.

Printed books available in English and Spanish.
Additional languages to be available in e-book format.

NH Chapter of AAP member may pre-order case(s) of books.

What NH parents are saying:

"Thank you for this great book! It is something that we don't really get a ton of information on."

"This book is a hit! I would have appreciated reading this text to my children before they were tested."

"I think the information is important for people who may not know about the dangers of lead and how to go about checking your home and testing your child."

This document was supported by Cooperative Agreement N01CE001408-02, funded by the Centers for Disease Control and Prevention (CDC) of the U.S. Department of Health and Human Services (HHS) as part of a financial assistance award totaling \$1.6M. The contents are those of NH DHHS and do not necessarily represent the official views of, nor an endorsement, by CDC/HHS, or the U.S. Government. Additional funding was provided by the United States Environmental Protection Agency under assistance agreement BG-00A00731 to NH DHHS. The contents of this document do not necessarily reflect the views or policies of the Environmental Protection Agency (EPA). This document was funded 68% by the CDC and 32% by the EPA.
