

Schools Reopening: COVID Conversations with Community Clinicians and DHHS

Course Description

This program is an interactive, web based learning and mentoring program to provide a forum for ongoing communication between NH DHHS and community pediatric clinicians around school reopening during the covid pandemic. In this online learning opportunity, subject matter experts and participants will discuss how to address subjects such as: considerations around risk reduction strategies in schools, the care symptomatic children, facilitation and factors to consider on school clearance and reentry, consideration to indicate change in school instruction models.

Developed in Collaboration with CHaD, NH Chapter of the AAP and DHHS

Who Should Attend

What is Project ECHO?

Project ECHO (Extension for Community Healthcare Outcomes) is a telementoring model. Virtual technology is used to support case-based learning and provide education. This will assist participants to care for more people, right where they live.

Benefits

- Participants learn from experts.
- Participants learn from each other.
- Experts learn from participants as best practices emerge.

Moving Knowledge, Not People
